PUBLISHED DAILY, TUESDAY AND WEEKLY

Office—Adjoining the Bridge.

PHUN.

—A lady, complaining how rapidly

time stole away said: "Alas! I am near

thirty." "Do not fret at it, madam, you

will get further from that frightful age

every day."

—"Are you thinking of what I'm say-

ing?" said a poor music-teacher to

young Miss A., after explaining to her,

at some length, the difference between the

major and the minor key. "Why, sir,"

replied Miss A., "I've been thinking all

this time whether these keys were ivory

or bone."

—The following little fable contains a

deal of wisdom, and, editors, clergymen

indeed, all classes of society will do

well to remember it and govern them-

selves accordingly: "A skunk once chal-

lenged a lion to a single combat. The

lion promptly declined the honor of such

a meeting. "How," said the skunk, "are

you afraid?" "Very much so," quoth the

lion, "for you would only gain fame

by having the lioner to fight a lion, while

every one who met me for a month to

would know that I had been in com-

pany with a skunk."

—"Fili, you are meditative to-day."

"Oh, such a delicious dream I had last

night! I lay in bed, and a throng of

lovely maidens came dancing and swim-

ing in the golden air beside me. And

oh! there was one with such lovely black

eyes, such a sweet bosom, and such de-

licious lips, all dressed in white; she

came dancing by my bedside, and while

her face lit up with a beaming look, and

as her dark eye glanced low, while her

poor lips wreathed in a smile, she

spoke—she spoke—"Fili, what did I

say? Well, Fili, what did she say?" She

asked how much mackerel were a dozen."

BY THE PRESIDENT OF THE

UNION RALLY

AT
ARMORY HALL.

THIS (SATURDAY) EVENING.

TICKETS WILL BE CONVEYED BY

HON. F. R. CORNELIUS.

of Minneapolis, and

C. H. LINDSEY, ESQ.,

Candidate for Elector.

Music will be furnished by the

UNION GLEE CLUB.

THE CITY.

The Burns Trial.—All of the

witnesses for the prisoner were examined

yesterday. The burden of the evidence

was designed to prove that the affairs of

the Winnebago Agency post office were

loosely managed, and that the prisoner

had heretofore sustained a good reputation.

Mr. J. Atchison was the first witness

called by the defense. He testified that

he was in relation to the agency, containing money.

It was delayed for some time and was

finally found to have been mislaid in the

agency office.

Michael Dunworth, a stage driver,

swore that the drivers charged the mail

at the Agency when Henry Dyer, the son

of the postmaster, was sick. Jacob

Graham and Daniel Beyerton, two other

drivers, testified that they had charged

the mail when young Dyer was unwell.

S. W. Long, stage agent at Wilton,

and one of the witnesses for the prosecution,

was called to fix the time when Daniel

Beyerton drove on the route, which

was from the 20th to the 31st of May.

Mr. Long also testified to the good reputation

of the prisoner.

Owen and Peter Crosby and H. P.

Norton all agreed that the previous reputation

of the prisoner was good.

A. G. Sanborn, a driver on the route,

swore that a piece of the canvas which

separated the driver from the passengers

was torn off in May which exposed the

mail under the driver's seat.

At the close of the testimony the District

Attorney announced that there were

six counts in the indictment and the two

counts which charged the prisoner with

stealing packages of letters containing ar-

ticles of value he would abandon. The

other four, which make specific charges

of robbing the mail would be the ones on

which he asked a conviction.

Judge Chatfield will make the opening

plea this morning in behalf of the prisoner,

and the case will probably be given to

the jury before night.

Juvénile Burglar.—A boy named

John Snowball, whose parents reside in

the upper part of the city, was arraigned

at the Police Court yesterday. The

crime he had committed was burglary,

but as he was only between ten and eleven

years old, the offense charged was made

larceny by the prosecution. He had en-

tered a house in the city day belonging

to a man named William Matlocks, and

taken therefrom a silver watch, gold

brooch and car rings. In view of his

youth his sentence was light and he was

committed to jail for three weeks.

He was arrested at home Thursday

afternoon, and locked up in the City Hall

prison until yesterday morning. All

night and in the Court Room he seemed

remarkably pertinent, begging piteously

to be allowed to go home and see his

parents, promising never to steal again.

His parents did not manifest a cor-

responding interest in his welfare as they

did not come near him after his arrest.

The necessity for some separate prison

for such criminals is apparent. He goes

into the common jail when he may not be

beyond reformation; but in three weeks

intercourse with the inmates there, may

come out a hardened villain. The work-

house promised for by the charter would

be an improvement on this system.

Union Meeting To-Night.

A meeting of the Union Club will be held

at Armory Hall to-night. But one week

more remains before the great battle will

be fought, the greatest ever fought since

our existence as a nation. Let the hall

be filled to hear Hon. F. R. E. Cornell

of Minneapolis, and C. H. Lindsey, Union

candidate for Elector, and let it be

seen that Union men are not asleep at

their posts.

A Reward of ten dollars will be

paid for the discovery of the thief who

stole some exchanges from our editorial

rooms yesterday, and said person is re-

quested to absent himself from this loca-

tion in future.

collect that the largest stock in the State,

LOCAL NOTICES.

WOMEN! WOMEN!—MOTHERS SAVE

your CHILDREN.—Thousands of children die

yearly from Worms which live inside their

bodies. Buy the CHLORIDE OF LIME LOZ-

ENGES which will surely kill and expel them

from your children. Children will be cured

in nine minutes from their mouths, soundings

were taken in the day, and an excellent

harbor was located; and, finally, a rail-

road line was run from the harbor to the

future mines. Colonel Duffell, civil

engineer and surveyor, reports that this

line will not be over five miles long, and

that it can be completed within a few

grades. The harbor is a good one, sit-

uated from all winds, accessible by a sim-

ple channel to large vessels, and suffi-

ciently extensive to accommodate the

largest commerce. The down grade of

seventy-five feet to the mine. The cars

will be run by gravity, and will be

loaded, and an up grade when light.

We understand that the development of

this rich district is a matter of time. Our

statements are not made upon doubtful au-

thority. The gentlemen by whom the explora-

tion was conducted and upon whose autho-

rity the results are given, are of eminent

standing in their professional as well as

their private character. They are unim-

peachable, and the sequel will prove that

REMARKABLE MINERAL DISCOVERY

An Immense Mountain of Iron

Discovered on the Canadian

Side of Lake Superior—

Unparalleled Rich-

ness of the Ore.

The existence of an immense iron

mountain, almost on the very shores of

Lake Superior, overlooking the famous

iron mountains of Marquette, seems al-

most too marvellous for belief, yet the

fact is even so. That such a wonderful

mineral deposit should remain undiscovered

until a very recent date, is the most

remarkable feature of the whole affair,

and shows how great and diversified is

the natural wealth of that world-renov-

ated region, contrasted with the tardy pace

of its development, particularly on the

Canadian side, where the newly discovered

mine is located. At the distance of

only about forty-five miles from Sault

Ste. Marie, this mountain lifts its frown-

ing summit to the altitude of six hun-

dred feet above the level of the plain and

nine hundred feet above the level of the

lake, being about twice as high as the

iron mountains of Marquette. The first

examination was made in July last by

Prof. S. P. Duffell, of Detroit, who, from

the general features, came to the con-

clusion that the range was identical

with that of Marquette, and in order to

satisfy himself on this point, he visited

Marquette to get the range, by which his

theory was found to be fully sustained.

A company was subsequently formed,

which obtained a patent from the Cana-

dian government for 3,200 acres of land

which comprises all, or nearly all, of the

mineral tract in question. About four

weeks ago some of the representatives of

the company, together with a few scien-

tific gentlemen, the whole party making

twenty-four persons, set out for the

district upon a tour of exploration, pro-

vided with all necessary appliances for

examination and survey. The party re-

turned a day or two since; and re-

ported that the most sanguine expectations

concerning the extent and richness of the

mine have been more than realized. The

ore is of the very finest quality, corre-

sponding to the ore of the Marquette

mines, and extending through a range of

several miles, in deposits many feet in

thickness. It is so plentiful that it can

be mined by the open-pit method, and

it is so rich that it will yield from one

ton of ore, a ton of iron. The ore is

OUTRAGES IN MISSOURI.

Fiendish Cruelty of Bill Anderson

and his Gang.

St. Louis, Monday, Oct. 24.—Several

prominent citizens of Glasgow, in-

cluding Ben. W. Lewis, Major Jos. W.

Lewis, Dr. Vaughn, Colonel Clark and

others, arrived at Laurie Bridge, on the

Pacific Railroad, last night. Since the

forces left Glasgow, Quantrell and

Anderson, have been there, committing

all kinds of outrages. The following is

an account of the robbery of Ben. W.

Lewis, father of the firm of Lewis and

Brother, extensive tobaccoists—a staunch

Union man, and of great wealth and influence.

This is from his own lips.

About 1 o'clock Friday night Bill An-

derson, who occupies Glasgow with a

company of his men, accompanied by a

Captain from Calaway county, went to

Lewis' house and demanded his presence.

Upon being told he was not at home, An-

derson said unless he was forthcoming

he would burn the house, but he

made his appearance, and upon his

life would spare. Upon this assurance

Mrs. Lewis sent for her husband.

Mrs. John I. Clark, mother of the rebel

Gen. Clark, and D. C. York, brother-in-

law of Sterling Price, were staying at

Lewis' house, neither of whom Mr. An-

derson knew. He showed them to a room

and, when Mr. Lewis appeared, An-

derson said, "I have heard of you and old

Price has heard of you, down in Arkansas

and Texas, and you are a damned rebel."

More than ten men were in the

house, and they all demanded Lewis'

money or life, declaring he had vast

wealth. He told them he had about \$100,000

and dollars, saying it was all he had.

But this did not satisfy him, and he

demanded a series of outrages upon

How Horral Took Passage for

Cincinnati—A Good Story.

From the Louisville Democrat.

A good story is told of a Washington

countryman, who on his way to Cincinnati

became somewhat elevated by sundry

drinks, but as good luck would have it

found a boat at the wharf, and was quick-

ly on his way.

Soon after leaving the wharf, a man

came around for his fare. Horral hand-

ed out a five dollar bill, and received four

dollars and ninety-five cents in change.

He ran into his pocket-book, with a

great eagerness, seeking the clerk had

made a mistake. That done, he leaped

back in his chair and fell asleep. A little

while and he was plucked awake by the

same man, who again demanded fare.

"I discovered the mistake," he said, "and

handed you change. The man paid me

only five cents, and Horral again went

into a dose. Ere he had got fairly into

dreaming of a new and friends far

away, around came the collector again,

and thus it went on for a long time.

At last Horral thought it very inconven-

ient, and concluded to vote the col-

lector a nuisance, and give him a bit of

advice besides; so he said:

"Is (hic) this a d-a-m-p-er (hic) one

"By no means," said the man. "Bran-

new."

"Then, by gummy, (hic) why do (hic)

you call it a d-a-m-p-er (hic) one?"

"—not he butler a fel (hic) better for

it every mile, as it comes due?"

"Really," said the man, "where do you

think you are going?"

"Cincinnati (hic) innit," said Horral.

"Cincinnati," said the collector again;

"why, you must be fairly out of your

All Instruments Warranted for Five

We confidently believe that the LA PETITE ORGAN, because of its artistic excellence and adaptability to the practical wants of the public is destined to be more widely used, both in private houses and in churches and halls, than any other large musical instrument. Without detracting from the merits of the Piano Forte

which stands confessedly in the highest place as the interpreter of certain classes of music, superior to any other. The **PIANO ORGAN** in that, to some extent, it unites the powers of the Piano with those of the Church Organ, while its capacity for the fit expression of sacred and home music, to which Americans are chiefly attached, is entirely superior to that of the Piano. Add to this the fact that it can be furnished at **MUCH LESS COST.** The instruments manufactured at this establishment combine all the recent improvements, and are
